

## The PATIT series on Information Security

The first presentations were given in 2002, in three sessions:

1. Background to information security
2. Players and Offences
3. Effective Measures

The fourth presentation in this series was given in November 2003

4. Hacktivism, Cyberterrorism and Cyberwar

The fifth presentation was given in November 2004

5. The insider threat

The material for the above can be found as follows:

**Book:** Information Insecurity, by Eduardo Gelbstein and Ahmad Kamal, published in 2002 by the UN ICT Task Force and UNITAR. Available as a free download from:

<http://www.unicttaskforce.org/index.html> (home page of the ICT Task Force)

[http://www.un.int/unitar/patit/dev/old%20site/curriculum/Information\\_Insecurity\\_Second\\_Edition\\_PDF.pdf](http://www.un.int/unitar/patit/dev/old%20site/curriculum/Information_Insecurity_Second_Edition_PDF.pdf) (UNITAR's New York website)

### **PATIT presentations on Information Security in 2002 and 2003**

These can be found at <http://www.un.int/unitar/patit/NYtraining/module5.htm>

The above five presentations, supplemented by the following two:

- Good hygiene for data and personal computers
- Legal framework relating to cybercrime

are a complete module on the topic. For further information please contact Ed Gelbstein ([ed.gelbstein@wanadoo.fr](mailto:ed.gelbstein@wanadoo.fr) or [gelbstein@diplomacy.edu](mailto:gelbstein@diplomacy.edu))
