### 6<sup>th</sup> International Internet Education Conference & Exhibition

4-2 September 2007

Ramses Hilton, Cairo, Egypt

## CALL FOR PAPERS

Technology enhanced learning and distance education are two of the fastest growing and most exciting areas in education delivery and professional training today. The Human and Technology Development Foundation (HDF) invite you to participate in the **ICT-Learn 2007 International Conference: 'Learning Anytime ... Anywhere'**. Your organization or company will surely benefit as a participant, exhibitor or sponsor!

We anticipate that the Conference will draw approximately 500 participants of which 100 are from across Middle East and internationally. Our members, delegates and presenters are the innovators, decision-makers and leaders in distance education, using leading-edge technology to deliver cutting-edge programs.

The theme for this year's Conference is “*Learning Anytime ... Anywhere*” and the program will showcase:

1. Strategies for accessible, effective and innovative education;
2. How to exploit technology or hybrid delivery strategies to provide new ways of learning;
3. Pedagogical implications of electronic delivery of education;
4. Quality Assurance in Education;
5. Leveraging technology to deliver professional development opportunities;
6. Technical and Vocational Educational training to achieve access for all, learning opportunities throughout life, and high quality, relevant and effective programs.

This Conference will be of interest to:

- Instructors, teachers, academic faculty and students;
- Administrators, managers and others who are interested in educational technology;
- Government, university, college officials and decision-makers;
- Trainers, private, public institutions and companies;
- Lifelong adult education and professional practitioners;
- Technology experts and policy experts.
