

Hans Blix, the chief inspector of United Nations Monitoring, Verification and Inspection Commission (UNMOVIC):

“...on many [other] issues the United States must be multilateral: ... To me the question of the environment is more ominous than that of peace and war. We will have regional conflicts and use of force, but world conflicts I do not believe will happen any longer. But the environment, that is a creeping danger. **I'm more worried about global warming than I am of any major military conflict.”**
