

EDCF Proposal
for
Wireless Broadband Internet Infrastructure
for
eEducation and eCommerce:
A partnership for
Sustainable Development
of the
Niger Delta Region
between
Niger Delta Development Commission (NDDC)
and
Republic of Korea

ROLE OF SAMSUNG

- Develop the technical specifications, financial estimates and implementation plan for the project
- Provide the technical expertise for the Wireless Broadband Infrastructure build out
- Provide training and technical support to ensure long term sustainability of the Broadband Network
- Specify the Requirements for a Niger Delta-wide IPTV (Television) and VOIP (Telephone) Service

NDDC Youth Computer Training Program goes Online

- Wireless Network of NDDC accredited Computer Training Centres
- Online Application for Centre Accreditation
- eLearning Programs to cover all the training modules
- CISCO Academy Online Program (Also Oracle, Microsoft, Linux/Open Source Programs)

Upgrading NDDC Training Centres to full Multi-purpose Telecentre Status

- The pervasive broadband internet access will spur the upgrading of NDDC accredited training centres to full Multi-purpose Telecentres for broad-based community service delivery
- eGovernment service delivery
- eAgriculture and eCommerce support

NNDC Skills Acquisition Program also goes Online

- Online selection and recruitment of candidates
- Web-based advertising of accredited centres
- Web-based Solicitation of Federal, Corporate and International Community Partners for sustainability of the scheme
- Special Online promotional programs to motivate program participants

Social Networking for Digital Content Development

- Social Entrepreneurship Support for Local Digital Content Business Development
- Nigerian Music (local and hip-up)
- Nigerian Movies (Nollywood)
- Culture and Tourism
- Arts and Craft

NDDC Online Oil and Gas training Institute

- Niger Delta-wide Access to Oil and Gas Training Curriculum
- Online Placement availability negotiation with Oil and Gas Companies
- Advertising and promoting Entrepreneurship opportunities for Niger Delta residents as a result of the Oil and Gas local content policy
